EXPERIENCE

DIATASYS

Freelancer

12/2024 - present

I'm working as a freelancer refactoring pages from MVC to Nuxt3 and Vue3, using rest API calls to fetch data either server-side or client-side, by keep performance score as high as it could be.

LIKNOSS CRS

Senior Frontend Engineer

11/2023 - present

- Developed and maintained a B2B desktop and web application for travel agent trip bookings, utilizing Vue.js 2, Nuxt.js 2, and Electron.
- Engineered the backend services for payment integration and email notifications using a Node.js and Express.js server for the B2B web application.
- Maintained a B2C web application for user trip bookings, built with React and utilizing the Context API for state management.
- Spearheaded the development of a cross-platform mobile application for trip booking using React Native and Gluestack UI.
- Implemented secure user authentication with options for Google sign-in or guest access, powered by Supabase.
- Integrated multiple payment gateways, including Stripe, Apple Pay, and Google Pay, to ensure seamless and secure transaction processing.

E-ON INTEGRATION S.A.

Freelancer

01/2023 - 09/2024

I'm working as a freelancer developing a Single Page Application (SPA) to display the results of a Big Data Analysis, using Vue3 and Quasar.

GREEK YELLOW PAGES

Frontend Developer

10/2021 - 11/2023

- Developed and maintained the frontend codebase of www.xo.gr, the greek yellow pages web app visited by 5.2M unique users monthly.
- Refactor the "xo.gr" homepage to use SSR using NuxtJS and VueJs.
- Improved SEO and reduced Performance Metrics according to Lighthouse and <https://web.dev/measure> audits. More specifically, worked on introducing SSG for the public marketing pages, reducing FCP (1.9 s), TBT (320 ms), LCP (2.6 s), CLS (0) and TTI (4.0s), greatly increasing the performance score.

E-ON INTEGRATION S.A. Web Applications Developer

11/2018 - 11/2020

E-ON INTEGRATION S.A. is a pioneer since 1999 with web applications and from 2008 with "cloud" and "Software as a Service" applications (ERP, CRM, HRM, ERM).

- Made its web applications responsive, using pure HTML5, CSS, and Javascript.
- Developed a web application to display Google Charts.
- Refactored the main web application and completely removed "framesets", solving compatibility issues with older browsers.
- Extended the application for Project Management and developed a new algorithm for Automatic Assignments of Tasks to Project Participants.
- Developed a Single Page Application (SPA) to display the results of a Big Data Analysis, using VueJS and Vuetify.

GREEK PADEL ACADEMY Customer Service

04/2018 - 11/2018

Padel is a mixture of tennis and squash, a sport that is rapidly becoming more popular in Greece during the past few years.

- Responsible for the cash desk, managing, and recording daily payments, equipment, and supplies
- Made reservations for padel courts (Customer Service and Support).

E-ON INTEGRATION S.A. Human Resources

11/2016 - 01/2017

- Checked and enriched data (categorization per area, sector, location, etc.) in the CVs database of www.intrajobs.com (Job Seeking Website).
